

Home Gallery by Cohlmia is a Stylish Wichita Tradition

Home Gallery by Cohlmia enjoys a quietly spectacular tradition—and reputation—for imbuing Wichita-area homes with warmth, grace, and elegance.

Since 1990, Home Gallery by Cohlmia has been creating timeless interiors for the greater Wichita area. Always-delighted customers can daily browse a cornucopia of such treasures as original oil paintings, hand-woven rugs of all shapes and sizes including custom, chandeliers, mirrors, lamps, floral arrangements, accessories, fabrics, trims, custom bedding, window coverings, dining room, living room, bedroom, and office furniture.

This local landmark boasts one of the largest designer-fabric collections in the area. Their showroom is a wonderland of classic style, exquisite quality, and custom capabilities. “If something’s not on our showroom floor,” says Jeff Cohlmia, “it’s usually available through our extensive resources. Also, we can customize finishes and other design details for most projects.” From traditional to transitional and classic to contemporary, Home Gallery can create the home of your dreams.

Home Gallery does carry a wealth of home furnishings, but there’s much more to this store: “People often think we only sell furniture,” comments Jeff Cohlmia, “but a lot of our business involves helping our clients make design decisions throughout new home construction or remodeling projects. This may involve creating room layouts for ideal furniture placement or educating individuals about architectural elements that would accent their home’s interiors.”

Whether Home Gallery by Cohlmia is designing an entire residence, a commercial space, or simply a single room, they approach each project as if it were their own. Valuing personal service and their relationship with the client above all, their goal is to create an area that is as perfectly functional as it is impeccably beautiful. And the Home Gallery design team thrives on creating interiors that compliment any lifestyle. They’ve amassed years of expertise, education, and accolades, ranging from the study abroad of art, architecture, and art history to design veterans who have an average of eighteen years’ experience plus design awards.

“But the ultimate award,” Jeff Cohlmia says, “is receiving a thank-you letter that expresses a client’s gratitude for our talents and for the unique items that helped realize their beautiful home.” Home Gallery’s designers love to please their customers and to give them something that they will love for years to come. Explains wife Lisa Cohlmia, “Our name—and our reputation—is on each item in each room’s design, so it’s imperative that we deliver a quality product no matter what size the project, budget, or timeline.
